VIRTUAL & REMOTE VOLUNTEER PROJECTS
As we move forward with serving the community during the novel coronavirus pandemic, United Way is offering safe and effective opportunities to volunteer.

VIRTUAL WORKSHOPS
Corporate volunteers will host various learning sessions with students on the Zoom platform, followed by a networking breakout session. Components of the session may include a panel discussion, Q&A, executive guest speaker, breakout rooms, or interactive activities. A United Way staff member will be responsible for the Zoom logistics, content creation, audience selection and session moderation.

Projects include:
• Storytime
• College & Career Readiness
• Company & Career Exposure
• STEAM (Science, Technology, Engineering, Art and Math) Expo
• Professional Development
• Financial Literacy

LETTER WRITING
Volunteers can write an uplifting note to a variety of audiences that have been affected by the pandemic.
• To Educators - Includes teachers, administrators and more.
• To Front Line Workers - Includes senior center workers, first responders, medical staff and more.
• To Seniors - Those that are isolated from family and friends.

VIRTUAL POVERTY SIMULATION
Today, many of our family, friends and neighbors are forced to make trade-off decisions daily. Breaking the Cycle, a virtual poverty simulation, is designed to raise awareness and understanding of the struggles faced by low-income families and individuals by asking participants to make those same tough decisions with limited resources. The simulation provides an opportunity to highlight the work of United Way and its partners. United Way will provide online platform and a discussion to highlight key learnings and ways volunteers can continue their commitment to the community.

2-1-1 VIRTUAL TOUR
United Way of Greater Atlanta’s 2-1-1 Contact Center connects families with community resources that enables them to thrive - resources like food pantries, job search and placement agencies, and financial emergency assistance agencies. With more than thousands of contacts received daily, the 2-1-1 team provides individuals and families the resources they need to recover and become self-sustaining once again. Volunteers will take a behind the scenes look at how we connect to the people on the other side of the calls through a virtual tour. The Tour includes a 2-1-1 overview, listening to a “live” recorded call, and engaging discussion.
